The man behind it all. Desmond Vella, Malta's Fashion Guru.

What does Fashion mean to you?

To some, fashion is an art form. To me it is a way of life, an expression to serve as an extension to one's personality.

Is there anything we should not wear?

Definitely anything you're not comfortable in.

Do you think of yourself as an artist or a businessman?

I am a dreamer and an artist at heart, who always puts his client's needs first before thinking as a businessman

Are you easy to work for?

I believe so. I am very direct and I expect a lot from my staff. My team enjoys having me around, working together as partners instead of being the big boss.

Your achievements so far?

The creation of Exit Fashion concept stores. Exit Events; producers of the cult TRIBU Music festival as well as the annual EARTH GARDEN festival. Miss Sixty franchise stores. Shu the exclusive shoe boutique, for men and women. And the trendy 2 22 in Valletta the art of dining - music - culture.

Can you remember the first piece of extravagant clothing you bought?

At the age of 13, I got my first pair of moon washed denim trousers.

Your Fashion tip to our readers?

Always look for quality, look for exclusivity and always buy with passion thus creating your own image statement.
